

Initial type testing
Residential space heating appliances fired by wood pellets
- Pellet stove -
DIN EN 14785: September 2006
DIN EN 14785 Corrigenda 1: October 2007

Applicant/contractor:	Thermorossi S.p.A. Via Grumolo, 4 I-36011 (VI)
Type designation:	---
Model designation:	Ciao, 2000
Type of appliances:	Residential space heating appliance fired by wood pellets without water heat exchanger, with fan assisted flue discharge and with internal fuel hopper
Total heat input:	3,2 kW – 7,7 kW
Water heat output:	Not applicable
Space heat output:	2,8 kW – 6,7 kW
Max. water pressure:	Not applicable
Max. water temperature	Not applicable
Fuels:	Wood pellets

Remarks: Both stoves are structurally identical. The only difference is in the external coating (see appendix A09).

Test results: The technical requirements cl. 4-8 of the above mentioned standard are fulfilled. The local applicable installation conditions are to be observed.

The electrical safety cl. 5.9. of the standard was not a part of this initial type testing.

The presumption of conformity with the relevant European Directives could only be confirmed by full compliance with Annex ZA.
